

Project: Private Residence, Buckinghamshire

WFA took great pleasure in working with Lordrite on this project.

Producing more than 130m² of planks and herringbone blocks from our Stability Planks and Stability Design range in 100% FSC European Oak.

It was finished by dark smoking the pieces first and then adding an extra coat of black UV oil giving a feeling of dramatic luxury to this stunning property.

Product: Stability Design Blocks & Planks – 100% FSC Certified European Oak Rustic

Finish: BF1733

Quantity: 130m²
