TRULY BESPOKE WOOD FLOORS

With the market full of 1000s of combination of textures, colours and finishes but sometimes restricted to certain widths and grades we decided to offer a Truly Bespoke service and give you the option to choose what width, grade, texture and finish your client requires.

With an extensive range of unfinished stock of European Prime and Rustic Oak and 100% Fumed Oak we are able to offer you a prompt colour matching service and production time.

Our Truly Bespoke brochure can be adapted to suit your own company needs and printed digitally for lower quantity requirements.

Simply supply us with your company logo, contact details and finish reference, we will update the file, proof for approval and send off to print. - Please call for prices.

Your company name/logo’s are customised on the cover finish references changed to suit ie; TBOO901 to WCOO901

Hand samples sent out same day - Free of charge

**Bona Edge**
**KEY BENEFITS**
- High cut rate
- Good reachability
- Effective dust pickup

It is equipped with a lamp for better visibility and its shorter sanding arm improves manoeuvrability and reduces strain on arms and hands. For optimal dust reduction, the Bona Edge is compatible with Bona DCS 70.

**Bona Edge XL**
**KEY BENEFITS**
- High cut rate
- Easy to handle
- Effective dust pickup
- For both holed discs and Velcro discs
- Easy to carry

Bona Edge XL (220 mm) is an extremely powerful edge sander. It can be fitted with ‘holed discs’ or Velcro-backed discs and picks up dust better than most edge sanders on the market. It is equipped with a lamp for better visibility and is easy to operate. For optimal dust reduction, the Bona Edge XL is compatible with Bona DCS 70.

**Bona FlexiSand 1.9**
**KEY BENEFITS**
- 25% greater motor power and heavier weight compared to FlexiSand 1.5
- Easy and ergonomic operation
- Dust containment ready
- Foldable handle
- Big wheels for easy transportation
- Prepared for the Bona Power Drive
- Effective concrete grinding with Bona Concrete Disc

With its powerful 1.9 kW motor and robust construction it runs smooth and cool even under a heavy load. Bona FlexiSand 1.9 is prepared for the Bona Power Drive, a unique drive plate that allows powerful rotary sanding to bare wood.

**Bona FlexiSand 1.5**
**KEY BENEFITS**
- Powerful single-speed motor
- Foldable handle reduces space during transportation
- Large wheels for easy transportation
- Bona Power Drive ready

It's powerful 1.5 kW motor and robust construction ensures stable operation even when under heavy load. Bona FlexiSand 1.5 is compatible with the Bona Power Drive, a unique drive plate that allows powerful, direction free sanding down to bare wood. For optimal dust reduction, the Bona FlexiSand 1.5 is compatible with Bona DCS 70.

**Bona Belt Sander**
**KEY BENEFITS**
- Powerful wood floor sander
- Ergonomic design with convenient lifting and lowering of the sanding drum
- Easy-start motor
- High weight for powerful sanding
- Infinite pressure adjustment: up to 50% of its weight can be adjusted to the sanding drum
- Easy fitting and changing of paper, no tools needed

All adjustments can be made from the top of the machine and the sanding drum is easily exchanged to another width if needed. The unique drum construction makes changing abrasive belt a job done in seconds. Bona Belt has a highly efficient vacuum unit that minimizes dust. For optimal dust reduction, connect it to Bona DCS 70.

**Bona Belt Lite Sander**
**KEY BENEFITS**
- Optimal balance between weight and drum pressure
- Superior manoeuvrability
- Easy fitting and changing of paper
- Low weight of 60 kg
- Infinite pressure adjustment: up to 50% of its weight can be adjusted to the sanding drum
- Can fit distressing drums to texture wood floors on site

All adjustments can be made from the top of the machine and the sanding drum is easily exchanged to another width if needed. Bona Belt Lite has a highly efficient vacuum unit that minimizes dust. For optimal dust reduction, connect it to Bona DCS 70.

**Bona Belt HD Sander**
**KEY BENEFITS**
- High weight for powerful sanding
- Dual speed for optimum sanding results
- Easy fitting and changing of paper
- Can fit distressing drums to texture wood floors on site
- Infinite pressure adjustment: up to 50% of its weight can be adjusted to the sanding drum

The unique dual-speed pulley system and infinite drum pressure adjustment guarantee optimum sanding quality regardless of wood species. It can be easily disassembled into three parts and quickly reassembled. Power, reliability and capability as an effective all-around belt sander. For optimal dust reduction, the Bona Belt HD is compatible with Bona DCS 70.

**Bona CombiEdge**
**KEY BENEFITS**
- Arm easily replaced for sanding under stairs
- Lightweight construction
- Integrated LED
- Very manoeuvrable
- High sanding and working speed
- Lightweight
- Efficient vacuuming
- Safety operating switch button on the handle

All adjustments can be made from the top of the machine and the sanding drum is easily exchanged to another width if needed. Bona CombiEdge is a job done in seconds. DIAMABRUSH

Diamabrush Mastic Removal Tool 25g
Designed to remove stubborn coatings from concrete such as mastic, carpet or tile adhesive, thin-set and thin coatings like urethane or paint. Easy to use without heavy grinding equipment or harmful chemicals, mounts to any standard floor buffer or auto scrubber and uses diamond coated blades to grind tough coatings away!

Diamabrush Hardwood Prep Tool 50g
KEY BENEFITS
• Blades feature 2 cutting edges
• Available in sizes from 305mm - 508mm
• Designed to fit a wide variety of rotary floor machines
• Removes polyurethane, varnishes and even hard to remove coatings such as carpet or tile glue residue

Blades feature 2 cutting edges. When diamonds wear on one side, simply turn the blades and use cutting edge on other side. Ideal for the toughest removal jobs on hardwood floors. Will not gouge wood or leave heavy scratches on floor surfaces. Low-profile design enables the tool to travel seamlessly over heat registers carved out in the floor.

Adesiv Legastucco
L100 Resin Filler 10kg
Fast drying bonding resin for sealing and filling wood floors; mixed to the wood dust obtained by the thinner smoothing. Coverage 2-4m²/1kg

Lecol - 7500 Filler
Lecol 7500 is to be mixed with fine abrasion dust from the wood in order to obtain a paste that can be used to fill small voids in parquet or other wooden floors. Coverage 2-4m²/1kg

Stopgap Clear Roll 40m
Solution for draughty floorboards, reduces draughts and provides a base for filler, fast and easy to fit. V-shape in design, this is the clever bit, as the v-shape means the strip is now springy. It will grip the sides of the gap it is pushed into, holding it in securely.

Adhesive GAP Filler 250g
Putty compound for use with engineered flooring.

**Bona Traffic Natural 4.95ltr**
To get the most natural looking surface, combine Bona Traffic Natural with Bona Natural primer. Bona Traffic Natural is based on the unique Traffic formula which is your guarantee for long-term durability and reliable results.

**Bona Mega 1ltr**
Gloss/Silk matt/Matt
Water based lacquer with no mixing required, for plank floors and floors with underfloor heating.

**Bona Mega 5ltr**
Gloss/Silk matt/Matt/Extra Matt
Water based lacquer with no mixing required, for plank floors and floors with underfloor heating.

**Bona White Primer 5ltr**
Bona White primer should be used to create a ‘white washed’ look to a wood floor - ideal when creating a Scandinavian style interior!

**Bona Natural 5ltr**
Bona Natural primer is designed to help retain a truly natural appearance to unfinished wood. Overcoat with Bona Traffic Natural lacquers for the most natural, ‘unfinished’ look and a highly durable surface.

**Bona Nordic Tone 5ltr**
Combine with Bona Craft Oil (pg 117) Frost or choose a contrasting colour for an exciting 2-dimensional effect. The colour can be changed or further intensified by adding 5% of Bona Mix Colour to the Tone.

**Bona Retarder 200ml**
Designed to be used when the indoor humidity is low and/or the temperature of the room is higher than normal. This will reduce the risk of the lacquer drying too quickly and leaving roller marks in the dried coat.

**Bona Crosslinker 100ml**
An additive designed for use with Bona Mega. It acts as an adhesion promoter for overcoating compatible pre-finished or previously coated floors.

**Bona Traffic HD & Hardener 4.95ltr**
Extramatt/Matt/Silk matt 100% PU based lacquer allows full traffic after 12 hours.

**Bona Traffic Replacement Hardener 0.45ltr**
Replacement hardener is the second component to be used in conjunction with Bona Traffic HD.

The main purpose of choosing the correct underlay is to deliver insulation, reduce the noise and overall make flooring more comfortable for walking on.

3mm Heatflow 15m² Roll
- 1.37m x 11m
- Sound Reduction up to 21dB
- Use when installing engineered wood and laminate flooring over underfloor heating. Material is sponge rubber.
- See page 129 for underfloor heating.

Blu “All In One” Underlay 100m² Roll
- Sound Reduction 20dB
- 3mm (10m²)
- Integral damp proof membrane with joining tape. For wood, concrete and laminate floors. Excellent thermal and shock insulation qualities.

1000G DPM 100m² Roll
- 4m x 25m
- Designed to be used in conjunction with a cushioning underlay, and to prevent moisture damaging the floor.

Bitumen Flooring Paper 25m² Roll
- Use over joints with T&G Flooring BS1521.
- Breathable membrane, building paper each side of the bitumen. Use where the timber subfloor has a moisture content higher than the recommended 10-12% for installation e.g. if you are nailing over battens or timber joists.

5.5mm Fibre Boards 10.03m² Pack
- Fine Floor eliminates noise in rooms, limits heat loss through the floor and gives the impression of a “warm” floor.
- These natural wood fibre underlay insulating panels are used for laminate, engineered, and solid wood domestic installations.

5mm Technics 5 Underlay 15m² Roll
- Sound Reduction up to 28db,
- High quality reinforced crepe backing provides exceptional dimensional stability to the installation of wood floors.

6mm Technics 6 Underlay 15m² Roll
- Sound Reduction up to 31db,
- High quality reinforced crepe backing provides exceptional dimensional stability to the installation of wood floors.
- *Available to order

6mm Duralay Timbertmate Excel DIY Underlay 10m² Roll
- Sound reduction underlay 23dB.
- Suitable for underfloor heating.

5mm Pro-tech Foam 10m² Roll
- Sound Reduction up to 22db,
- (Inc 1000G DPM) takes out unevenness in the sub floor surface, full 1000 gauge damp proof membrane to both sides with integral joining tape.

3mm Pro-tech Foam 10m² Roll
- Sound Reduction up to 22db,
- (Inc 1000G DPM) takes out unevenness in the sub floor surface, full 1000 gauge damp proof membrane to both sides with integral joining tape.

3mm Heatflow 15m² Roll
- 1.37m x 11m
- Sound Reduction up to 21dB, use when installing engineered wood and laminate flooring over underfloor heating. Material is sponge rubber.

Ciranova is a high quality brand produced by Debal Coatings, with more than 80 years of expertise in the field of finishing and maintenance products for wood flooring.
Wood needs care and protection.

The best product for wood is a finish that is developed only for wood, so you can enjoy your wood for a long time. With just one tin of Osmo you can achieve near to double the square meter coverage of an ordinary finishing system, saving you time and money.

The foundation of Osmo wood finishes has been based upon purified and refined natural resources which are carefully harvested natural oils and hard waxes.
