GENUINE RECLAIMED OAK

- Our genuine reclaimed products are produced from 60-100 year old beams reclaimed from old buildings in France and Germany.
- Open splits, knots, holes and dead worm holes are filled with black filler and the surface heavy brushed to leave some of the filler lower and emphasise the appearance of these features.
- Original bandsawn and planer marks plus irregular edges may be visible and add to the characteristics of a reclaimed floor.

Profile: Planks and Chevron 2 sided micro bevelled, Herringbone 4 sided micro bevelled
Thickness: 20.5/5.5mm
Finish: Unfinished / natural oiled / light smoked & oiled / dark smoked & oiled
Dimensions: Planks* 215 - 225 x 600 - 2400mm
 Herringbone 100 x 500mm
 Chevron 120 x 600mm

* subject to current stock

TRULY BESPOKE WOOD FLOORS

With the market full of 1000s of combinations of textures, colours and finishes but sometimes restricted to certain widths and grades, we decided to offer a Truly Bespoke service and give you the option to choose what width, grade, texture and finish your client requires.

With an extensive range of unfinished stock of European Prime and Rustic Oak and 100% Fumed Oak we are able to offer you a prompt colour matching service and production time.

PLEASE NOTE The process of sample matching takes **10 working days** as we use the same extensive weighted method of application to ensure precise and consistent application of the oils and stains.

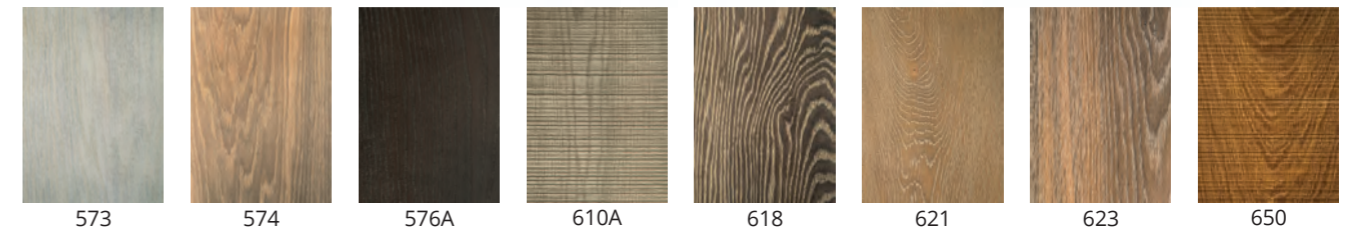

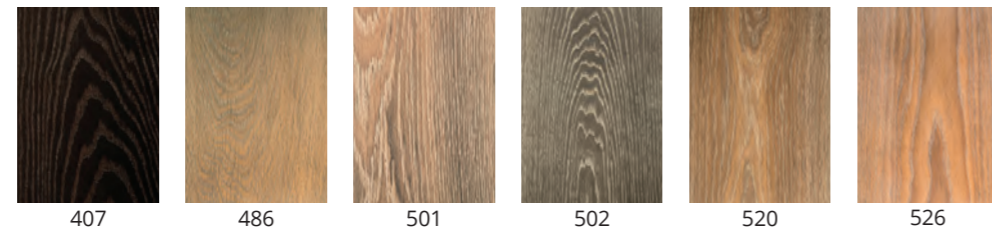

Our Truly Bespoke brochure can be adapted to suit your own company needs and printed digitally for lower quantity requirements.

Simply supply us with your company logo, contact details and finish reference. We will create the brochure, proof for approval and arrange the printing and delivery to you - **Please call for prices.**

Your company name/logos are customised on the cover.
Finish references changed to suit ie; **TBO0901** to **WCO0901**.

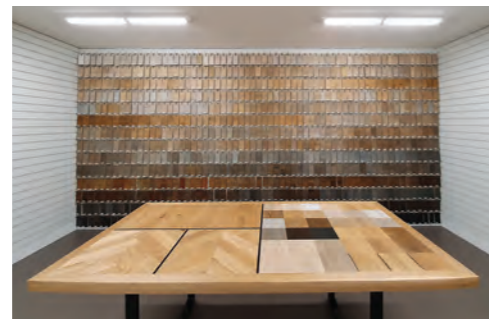

These examples are *bespoke colours* created from colour matching to supplied samples.
Call to request yours.

THE LABORATORY

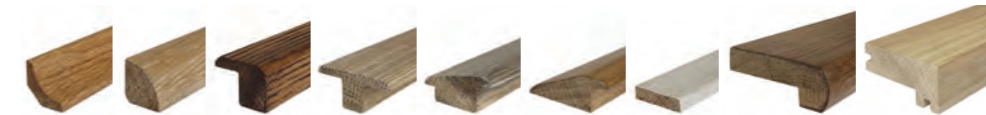

We welcome all architects, designers and installers to visit our Lab. This is where we create our colour magic and are very proud to show off our Truly Bespoke service! Our *inspiration wall* is back and showcases 850 of the 2400+ finishes we've created to date.

STAIRS AND MOULDINGS

Our Truly Bespoke options are not limited to the production of beautiful floors. Visitors and customers alike are suitably impressed by our products on offer for the *linking of rooms*. This *bespoke service* includes the matching of stairs and mouldings to our ranges; thresholds, beadings and more!

See pages 116 - 117 for mouldings and stair nosings.

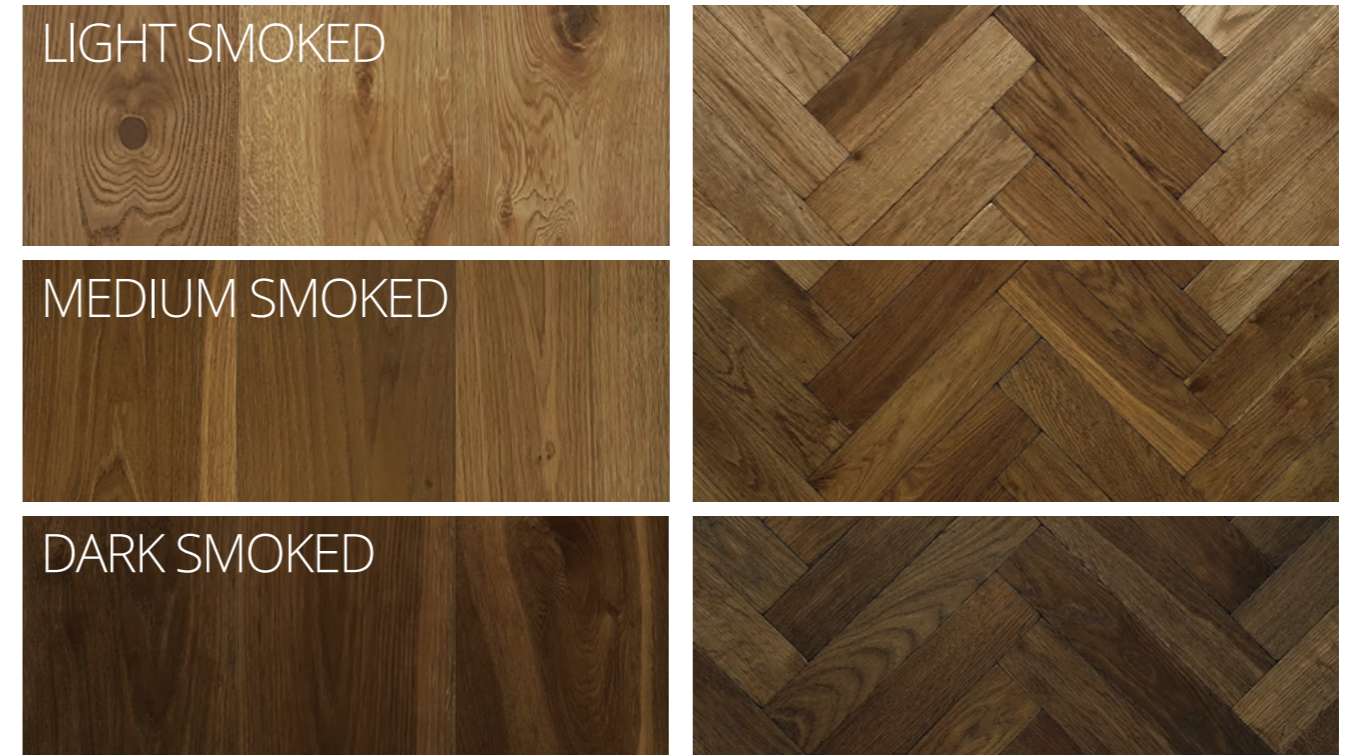

GENERAL	Clear grade with mixture of natural grain.
KNOTS	Occasional pin knots < 10mm.
SAPWOOD	Minimal edge and core sapwood.
COLOUR	Natural variation allowed with no heart wood.

GENERAL	Rustic grade with mixture of natural grain and knots.
KNOTS	Healthy sound knots up to 60mm with dead knots up to 25mm and holes firmly filled.
SAPWOOD	Minimal edge and core sapwood.
COLOUR	Natural variation allowed with some heart wood.

Each piece of flooring is tumbled to achieve an authentic aged look to the edges, corners and surface of the timber.

NATURAL	Surface smoked – tones of light to medium brown - <i>variation in colour will occur.</i>
MEDIUM	Surface smoked – tones of medium to dark brown - <i>variation in colour will occur.</i>
DARK	Surface smoked – tones of dark brown - <i>variation in colour will occur.</i>

Our fumed and smoked colours are achieved through a process which reacts with the natural tannins in the oak and although we use controlled processes, the final colours are dictated by nature and not by using pigmented stains.

Omer PR28 23g Headless Pin Gun

Pin length 15-28mm

Use to fix 6/10/14mm parquet/scotia beading and delicate mouldings in place whilst the adhesive cures.

Bona FlexiSand 1.9
KEY BENEFITS

- 25% greater motor power and heavier weight compared to FlexiSand 1.5
- Easy and ergonomic operation
- Dust containment ready
- Foldable handle
- Big wheels for easy transportation
- Prepared for the Bona Power Drive
- Effective concrete grinding with Bona Concrete Disc

With its powerful 1.9 kW motor and robust construction it runs smooth and cool even under a heavy load. Bona FlexiSand 1.9 is prepared for the Bona Power Drive, a unique drive plate that allows powerful rotary sanding to bare wood.

See Page 76 for attachments.

Bona FlexiSand 1.5
KEY BENEFITS

- Powerful single-speed motor
- Foldable handle reduces space during transportation
- Large wheels for easy transportation
- Bona Power Drive ready

With its powerful 1.5 kW motor and robust construction ensures stable operation even when under heavy load. Bona FlexiSand 1.5 is compatible with the Bona Power Drive, a unique drive plate that allows powerful, direction free sanding down to bare wood. For optimal dust reduction, the Bona FlexiSand 1.5 is compatible with Bona DCS 70.

Bona Edge
KEY BENEFITS

- High cut rate
- Good reachability
- Effective pickup

It is equipped with a lamp for better visibility and its shorter sanding arm improves manoeuvrability and reduces strain on arms and hands. For optimal dust reduction, the Bona Edge is compatible with Bona DCS 70.

Bona Edge XL
KEY BENEFITS

- High cut rate
- Easy to handle
- Effective dust pickup
- For both holed discs and Velcro discs
- Easy to carry

Bona Edge XL (220 mm) is an extremely powerful edge sander. It can be fitted with 'holed discs' or Velcro-backed discs and picks up dust better than most edge sanders on the market. It is equipped with a lamp for better visibility and is easy to operate. For optimal dust reduction, the Bona Edge XL is compatible with Bona DCS 70.

Bona Belt Sander
KEY BENEFITS

- Powerful wood floor sander
- Ergonomic design with convenient lifting and lowering of the sanding drum
- Easy-start motor
- High weight for powerful sanding
- Infinite pressure adjustment: up to 50% of its weight can be adjusted to the sanding drum
- Easy fitting and changing of paper, no tools needed

All adjustments can be made from the top of the machine and the sanding drum is easily exchanged to another width if needed. The unique drum construction makes changing the abrasive belt a job done in seconds. Bona Belt has a highly efficient vacuum unit that minimizes dust. For optimal dust reduction, connect it to Bona DCS 70.

Bona Belt Lite Sander
KEY BENEFITS

- Optimal balance between weight and drum pressure
- Superior manoeuvrability
- Easy fitting and changing of paper
- Low weight of 60 kg
- Infinite pressure adjustment: up to 50% of its weight can be adjusted to the sanding drum
- Can fit distressing drums to texture wood floors on site

All adjustments can be made from the top of the machine and the sanding drum is easily exchanged to another width if needed. The unique drum construction makes changing the abrasive belt a job done in seconds. Bona Belt has a highly efficient vacuum unit that minimizes dust. For optimal dust reduction, connect it to Bona DCS 70.

Bona CombiEdge
KEY BENEFITS

- Arm easily replaced for sanding under stairs
- Lightweight construction
- Integrated LED
- Very manoeuvrable
- High sanding and working speed
- Lightweight
- Efficient vacuuming
- Safety operating switch button on the handle

It is equipped with a lamp for better visibility and its shorter sanding arm improves manoeuvrability and reduces strain on arms and hands. For optimal dust reduction, the Bona Edge is compatible with Bona DCS 70.

Bona Belt HD Sander
KEY BENEFITS

- High weight for powerful sanding
- Dual speed for optimum sanding results
- Easy fitting and changing of paper
- Can fit distressing drums to texture wood floors on site
- Infinite pressure adjustment: up to 50% of its weight can be adjusted to the sanding drum

The unique dual-speed pulley system and infinite drum pressure adjustment guarantee optimum sanding quality regardless of wood species. It can be easily disassembled into three parts and quickly reassembled. Power, reliability and capability as an effective all-around belt sander. For optimal dust reduction, the Bona Belt HD is compatible with Bona DCS 70.

Bona FlexiSand 1.9
KEY BENEFITS

- Powerful, single phase motor
- Forced driven geared drive plate
- Four individually geared grinding pads
- Easy and ergonomic operation
- Large wheels for easy transportation
- DCS compatible for dust-free sanding
- Multiple drive plate capability

Bona SupraFlex & Accessories
All in one sanding machine for sanding of edges as well as for wire brushing of edges.

KEY BENEFITS

- Powerful 1400 W motor
- Stepless speed selection (600-2100 rpm)
- Dust cover allows connection to Bona DCS for dust free sanding
- M14 tool fixture – easy to change between sanding disc to brushes
- Noise reduction

Bona Power Drive
Used exclusively with the Bona FlexiSand 1.5 & 1.9 for sanding down to bare wood.

Bona Power Drive NEB
Used exclusively with the Bona FlexiSand machines.

Bona FlexiSand 4 Head Quattro Disc
Perfect for reducing/smoothing out drum marks and rotational scratches from edger machines.

Bona FlexiSand Concrete Disc
Basic drive plate for fitting different types of sanding segments with magnetic fixing for quick and easy change overs.

Bona FlexiSand 6 Head Multidisc
With its six-plate construction, the Bona Multidisc creates an exceptionally smooth and flat surface finish.

Bona Concrete Diamond Segment
For removing the sinter layer from levelling compounds and or screeds - *other segments available.*

Silverstone II Compressor

- Lightweight - 11KG
- 5Ltr Tank, 8 Bar Pressure, 115 PSI, 0.50 HP Motor
- Very good noise level
- Oil free & maintenance free
- Compact size – 400mm L x 150mm W x 400mm H
- Suitable for headless pin guns, staplers, brad guns & other pneumatic equipment

Extreme 3T Compressor

- Lightweight - 19KG
- 5Ltr Tank, 10 Bar Pressure, 145 PSI, 1.50 HP Motor
- Very good noise level
- Oil free & maintenance free
- Compact size – 550mm L x 340mm W x 380mm H
- Suitable for headless pin guns, staplers, brad guns & other pneumatic equipment

Compressor Air Gun

25ft Hose & Quick Release Fitting

Y Piece Connector
Connect 2 Hoses, universal and PCL.

Spare Parts Available

Re-finishing for floors starts with using the Diamabrush™ by Malish.

Diamabrush Clutch
Universal 5" plates for use with buffing machines. As shown left Numatic, middle Tru-Fit and right Whirble.

Replacement Blade Kit
For mastic removal tool.

Replacement Blade Kit
For hardwood prep tool.

16" Diamabrush Mastic Removal Tool 25g
Designed to remove stubborn coatings from concrete such as mastic, carpet or tile adhesive, thin-set and thin coatings like urethane or paint. Easy to use without heavy grinding equipment or harmful chemicals, mounts to any standard floor buffer or auto scrubber and uses diamond coated blades to grind tough coatings away!

15" Diamabrush Hardwood Prep Tool 50g
KEY BENEFITS

- Blades feature 2 cutting edges
- Available in sizes from 305mm - 508mm
- Designed to fit a wide variety of rotary floor machines
- Removes polyurethane, varnishes and even hard to remove coatings such as carpet or tile glue residue

Blades feature 2 cutting edges. When diamonds wear on one side, simply turn the blades and use cutting edge on other side. Ideal for the toughest removal jobs on hardwood floors. Will not gouge wood or leave heavy scratches on floor surfaces. Low-profile design enables the tool to travel seamlessly over heat registers carved out in the floor.

Fidbox
The black box data recorder for the flooring industry.

Available To Download

THE Electronic Monitoring System for the flooring industry helping protect floors and reputations against:

CUPPING WARPING OPEN JOINTS BUCKLING

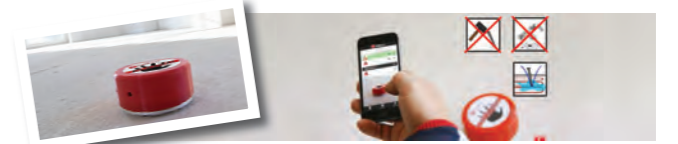

WOOD FLOORS + UNDERFLOOR HEATING = USE FIDBOX

Hmbox & Replacement Adhesive
Measure slab moisture.

- Simple remote measurement of screed and room conditions
- Cost savings – reduce wasted time and expense of site visits
- Predict the right time for installation of floor coverings
- Data available anywhere from browser or APP for multiple users

Know site conditions without having to visit site
Through the web-based solution the measurement results can be retrieved at any time. Corrective action can be quickly taken to create an optimum climate on the construction site for the installation of floor covering.

SCREEDS + DIGITAL MEASURING = USE HMBOX

Fein MultiMaster 350 QSL Quickstart Starlock Kit
110/230V
New model with improved motor and quick release connector.

Fein Dustex 25 L Wet / Dry Dust Extractor
110/240V
Compact, powerful wet / dry dust extractor for connecting to power tools when working on site.

Fein Dustex Replacement Dust Bags 25 L
5 x fleece filter bags for use with Fein Dustex 25 L above. Tear-resistant bags work with the cartridge filter to ensure the collection of debris, for wet or dry use and non-reusable.

Universal fitting - For Fein, MultiMaster, Bosch, Makita, DeWalt & Milwaukee Multi Tools

Fein MultiMaster Starlock Sanding Pad 'SL'
Plastic carrier plate for preventing damage and marks on the workpiece. Triangular shape, hook and loop fastening. Perforated version for sanding with dust extraction.

Fein Sanding Sheets
40g/60g/80g/100g
Also available in the perforated version, please ask.

Fein Starlock Blades
35mm & 65mm for the MultiMaster. Tool changes possible in just 3 seconds!

Fein MultiMaster Depth Stop
Depth stop for all saw blades. For accurate working at depth. Effective protection for blade and workpiece.

MACHINERY & TOOLS

Festool TS55 REBQ - Plus - GB - FS Circular Saw
110/240V

Includes

- FS1400mm guide rail
- splinterguard
- universal saw blade
- hex key, WAF 5

Cuts up to 55mm. Use to cut Perimeter Borders.

Festool TS75 EQ - Plus - GB - FS Circular Saw
110/240V

Includes

- FS1400mm guide rail
- splinterguard
- universal saw blade
- hex key, WAF 5

Cuts up to 75mm. Use to cut Perimeter Borders.

TSC55 Li 5,2 REB - Set/XL - FS Cordless Plunge Saw
110/240V

Includes

- Guide rail & splinterguard
- 2 airstream battery packs
- 2 rapid chargers
- fine tooth saw blade
- hex key, WAF 5

Cuts up to 55mm. Use to cut Perimeter Borders.

Festool Guide Rails

Available in 3 different lengths 800, 1400 and 2400mm, please call for other sizes available.

Festool Guide Rail Connector

Joins two tracks together.

Festool Guide Rail Splinter Guard

Transparent replacement splinter guard for guide rails FS1400 and FS5000.

Festool Guide Rail Adhesive Cushion Strip

10m roll, replacement adhesive cushion strip for FS and FS/2 guide rail.

Festool Fine Saw Blades TS55 48 Tooth & TS75 52 Tooth

Cutting width 2.20mm. For clean and splinter-free cross cuts in solid wood.

Festool Fastening Clamp FSZ 120

Clamping width 120mm for securing the guide rail in place. Two in the pack.

Festool Padded Guide Rail Bag

Festool Guide Rail Deflector

Prevents suction hoses and cables from catching on the end of the guide rail.

Festool Slideway Lining
10m

Festool T18+3 Li 5.2 Plus GB Cordless Drill

Includes

- 2 airstream battery packs
- 1 rapid charger
- CENTROTEC tool chuck

Festool OF 1010 Guide Rail Adapter
Complete with support, for use of routers with the FS guidance system, without rods.

Festool Guide Rail FS 1400
Safe, perfectly straight power tool guidance, splinterguard for splinter-free sawing, length 1400mm.

Festool OF 1400 Guide Rail Adapter
With fine adjustment and support for router without guide rods, without rods.

Festool EHL 65
Replacement Blade.

Festool EHL 65
Dust Bag.

Festool OF 1010 EBQ Plus
110/240V

Includes

- chip deflector
- Ø1/4" clamping collet
- side stop
- open ended spanner, WAF 24
- guide rail adapter
- in SYSTAINER SYS 3 T-LOC

For routing profiles, grooves, rebates and dovetail joints and routing depth adjustment to 1/10mm.

Festool OF 1400 EQ-Plus
110/240V

Includes

- chip deflector
- Ø1/4" & Ø1/2" clamping collet
- side stop with fine setting
- copying ring Ø 30 mm
- extraction hood, top
- open ended spanner, WAF 24
- in SYSTAINER SYS 4 T-LOC

70 mm routing stroke and routing depth adjustment to 1/10mm.

Festool EHL 65 EQ Plus Planer
110/240V

Includes

- parallel side fence
- hex key, WFA 2
- in SYSTAINER SYS 2 T-LOC

Maximum 4mm planing depth and 23mm rebate depth for more speed and flexibility. Efficient dust extraction at the left/right side no clean-up needed.

Festool Domino DF500 Q-Plus Joiner
110/240V

Includes

- DOMINO cutter D5
- open ended spanner, WAF 8
- in SYSTAINER SYS 2 T-LOC

Varied use with dowel sizes from 4 x 20mm to 10 x 50mm.

Festool PS420 Angle Table

Base for mitre, undercuts, and angled cuts from +45° to -45°, stepless angle adjustment, fits Festool 400/420 jigsaws.

Festool Pendulum Jigsaw Trion PS300
110/240V

Includes

- patented three-way saw blade guide for cutting precise angles
- splinterguard
- in SYSTAINER SYS 1 T-LOC

Festool Domino XL DF700 Joiner
240V

Includes

- DOMINO cutter D12
- empty dowel box
- open ended spanner, WAF 12
- in SYSTAINER SYS 5 T-LOC

Maximum stability of joints up to a DOMINO size of 14 x 140mm.

Festool Carvex PS420 EBQ-Plus Jigsaw
110/240V

Includes

- saw blade
- splinterguard
- in SYSTAINER SYS 1 T-LOC

Low weight 1.9 kg.

Festool Carvex PSBC420 EB-Plus Cordless Jigsaw

Includes

- saw blade
- splinterguard
- BP 18 Li 5.2 AS battery pack
- SCA 8 rapid charger
- in SYSTAINER SYS 2 T-LOC

Low weight 2.4 kg.

**Festool Cleantex CTL 26
Mobile Dust Extractor**
110/240V

- Includes
- SELFCLEAN filter bag
 - smooth suction hose dia. 27/32 x 3.5 m AS/CT
 - hose and cable holder
 - SYS-Dock with T-LOC function
 - bluetooth® module for remote control on the suction hose or automatic start via the bluetooth® battery pack
- Container/filter bag capacity 26/24L

See page 89 for cleaning sets

**Festool CTL Midi Bluetooth®
Mobile Dust Extractor**
110/240V

- Includes
- bluetooth® functionality for extractor, remote swith-on for cordless tools
 - hose and cable holder
 - SELFCLEAN filter bag
 - smooth suction hose dia. 27/32 x 3.5m AS/CT
 - SYS-Dock with T-LOC function
- Container/filter bag capacity 15/12.5L

Festool CTL SYS Extractor
230V

- Includes
- fitted filter bag
 - suction hose
 - hose holder
 - SYS-Dock with T-LOC function
- Approval for dust class L, only suitable for dry extraction, container/filter bag capacity 4.5/3.5L

**Festool Rotex RO90
DX FEQ-Plus**
110/240V

- Features
- FastFix sanding pad system, tool-less
 - Sanding up to the edge thanks to the Festool PROTECTOR
 - Four tools in one: for coarse/fine/delta sanding and polishing. Resulting in low investment costs and savings on working time
 - weight <1.5 kg

**Festool Rotex RO125
FEQ-Plus**
240V

- Features
- FastFix sanding pad Ø 125 mm (soft-HT)
 - Sanding up to the edge thanks to the Festool PROTECTOR
 - in SYSTAINER SYS 2 T-LOC
 - weight <1.5 kg

**Festool Rotex RO150
FEQ-Plus**
110/240V

- Features
- MULTI-JETSTREAM 2 FastFix sanding pad Ø 150 mm (soft W)
 - Sanding up to the edge thanks to the Festool PROTECTOR
 - in SYSTAINER SYS 3 T-LOC

- Festool Sanding pad RO90 DX**
Delta sanding pad plate for attaching StickFix sanding pads soft and hard.

- Festool RO90 Delta Backing Plate**
Component with StickFix coating onto which sanding pad is secured.

- Festool RO90 Delta Sanding Pad**
Soft/Hard
StickFix adhesive layer for quick change of sanding pad, hard or soft versions with snap stud.

- Festool CT 26 Dust Extractor Longlife Bag**
Used for extraction of dust types not hazardous to health and not recommended for fine dust.

- Festool CTL Midi Longlife Filter Bag**
Used for extraction of dust types not hazardous to health and not recommended for fine dust.

- Festool Rotex RO125 Pad**
Ultra Soft/Soft/Hard

- Festool Rotex RO150 Soft Sanding Pad**
FastFix, soft version. For universal use on plain and arced surfaces.

- Festool Rotex RO150 Hard Sanding Pad**
FastFix, hard version. High edge solidity, for plain surfaces and narrow edges.

- Festool CT 26 Dust Extractor Filter Bag**
For extracting dust with the CTL26 with Autoclean function.

- Festool Selfclean Midi Filter Bag Original/New Model**
High-quality cloth filter bag, cleans dust deposits inside the filter bag automatically.

Festool Kapex KS88 RE GB Sliding Compound Mitre Saw
110/240V

Includes

- HW universal saw blade W60
- workpiece clamp
- hex key, WAF 6
- in carton

FastFix saw blade changing for adaptation to the working material with twin-column guide for accurate cuts.

Festool Kapex KS120 EB Sliding Compound Mitre Saw
110/240V

Includes

- HW universal saw blade W60
- bevel
- workpiece clamp
- operation tool
- in carton

FastFix saw blade changing for adaptation to the working material with twin-column guide for accurate cuts and Safety brake.

Festool Kapex Underframe Complete set

Features

- convenient transport on building and installation sites
- simple folding in for transport
- Simple fitting of trimming attachments
- Integrated meas. scale and adjustable stop permit exact repeat cuts
- weight 21.00kg
- work height 900mm

Festool Kapex Underframe

Features

- convenient transport on building and installation sites
- simple folding in for transport
- weight 13.00kg
- work height 900mm

Festool 4m Plug IT Cable
rubber insulated cables
110V Yellow
240V Green

Festool Precisio CS50 EB-SET Complete set
110/240V

Includes

- HW universal saw blade W32
- angle stop
- ripping-cut fence
- sliding table
- extension table
- extension table
- foldaway legs
- splinterguard
- dust extraction set
- workpiece holder
- operation tool

Festool Systainer
Box 2
Dimensions (L x W x H)
396 x 296 x 157.5mm
Weight 1.50kg
• 1x cover for label field

Festool Sortainer
Dimensions (L x W x H)
396 x 296 x 210mm
For storage in drawers: Small parts such as nails, dowels or screws can be stored just as neatly as hand tools.

Festool Systainer
Box 3
Dimensions (L x W x H)
396 x 296 x 210mm
Weight 1.80kg
• 1x cover for label field

SYS-Roll

- transportation of SYS Classic and SYS T-LOC
- extra large wheels (D 200mm)
- for easy transportation up and down steps
- rotating lockable front rollers - manoeuvre in all directions

Festool Systainer
Box 4
Dimensions (L x W x H)
396 x 296 x 315mm
Weight 2.10kg
• 1x cover for label field

Festool Compact Cleaning Set

- curved hand tube D 36 HR-K AS
- extension pipes D 36 VR-K AS
- 4-piece floor nozzle D 36 BD270
- crevice nozzle D 36 FD-210
- in SYSTAINER SYS 1 T-LOC

Festool Systainer
Box 5
Dimensions (L x W x H)
396 x 296 x 420mm
Weight 2.70kg
• 1x cover for label field

Festool Tradesman Cleaning Set

- smooth suction hose D 36
- curved hand tube D 36 HR-K AS
- extension tube, special steel 3-piece D 36 VR-M3x
- crevice nozzle D 36 FD-210
- suction brush D 36 SP
- in SYSTAINER SYS 5 T-LOC

Recoil Knee Pads
Scientifically proven to reduce peak pressures on the knee by up to a staggering 76%

For all other Recoil Knee pad accessories give us a call!

Recoil Knee Pad Replacement Covers
Suitable for all existing knee pad types.

WFA 10m Tape Measure

Maxvac DV-20 LB L Class Vacuum
Including Floor Bar, Hose and Tools 100/240V.

The Maxvac Dura DV-20-LB 110v/240v is a single motor vacuum and has wet and dry capability, with a 20ltr drum it is highly versatile and useful in many scenarios.

It has up to 1300watt power take off with auto run and filter clean with a dual power motor. Fitted with castors using non-mark wheels means it can be used on a variety of surfaces. The drum is extremely tough and can withstand the toughest of treatment, the motor housing is also very tough and can withstand impact.

Includes (also sold separately)

- Industrial Bar Insert for Carpet
- Industrial Brush Insert for Floors
- Industrial Rubber Bar Insert for Liquids
- Replacement L Class Filter, DV20/35
- Crevice Tool, 45mm
- Round Brush
- Suction Hose with Swivel Connections 2.5m x 45mm, DV20/35
- Suction Hose with Stepped Power Tool Adaptor, 4.0m x 36mm, DV20/35
- Floor Bar Housing
- 45mm Plastic Wand for Dura Range 2pcs set

FILTER CLASS

Features

- Power take off - up to 1300w
- Reduces need for extension leads and power supplies
- Filter type - cartridge
- Power cord length - 7m
- Capacity - 20ltrs
- Dimensions (L x W x H) - 410 x 420 x 600mm
- Weight - 9.6kg

Maxvac Dura Assembly Drum Fleece Bags, L Class

Maxvac Waletale
Dust control bucket fitting with 6mm groove, for screed mixing bucket.

Maxvac Stepped Power Tool Adaptor
Use this adaptor to attach the hose to most Festool tools.

FESTOOL

Leica DISTO D2-BT Laser Distance Measurer with Bluetooth

The D2 measures from its base by default and can be configured to measure from the front.

- Range up to 100m
- Press a button & get an instant measurement on screen
- Typical accuracy +/-1.5mm
- 10 Value memory
- IP54 dust & splash water protected
- Multi-functional endpiece - fits into corners for accurate diagonal measurements

The endpiece is an integral part of the tool, connected to the circuit board. In the closed position the DISTO™ knows to measure from its base. Flip it open 90 degrees to align the base perfectly on an edge or corner. Flip it out all the way and you can put this baby in a corner to accurately measure diagonals. Otherwise, the width of the base would prevent you from getting all the way into the corner, rendering the measurement inaccurate.

Leica DISTO X3 Rugged Laser Distance Measure with Bluetooth

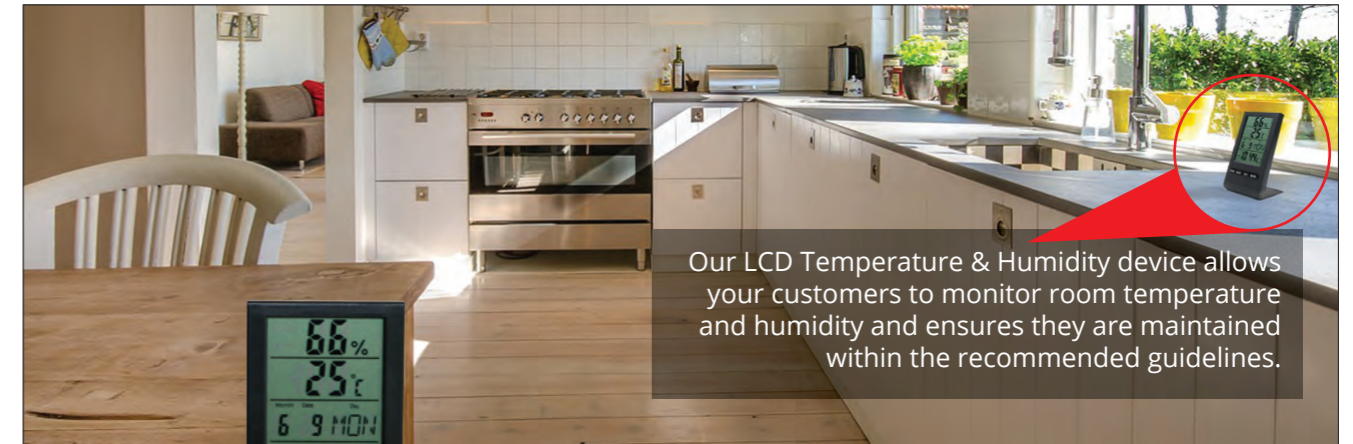

The Leica DISTO X3 is perfect for tough construction site conditions. It is drop-tested up to 2 m in height, water jet and dust protected to IP 65 standards.

It allows you to measure distances between any two points from one position.

- Range up to 150m
- Tilt sensor
- Typical accuracy +/-1mm
- 20 Value memory
- IP65 dust tight & water jet protected
- Multifunctional end piece with auto recognition

The Leica DISTO™ X3 display automatically rotates in line with the measurement direction. This means you can always read your measurement results from any angle. This device is designed to make indoor laser measurements an easy task. A holster, hand loop and batteries are included.

LCD Thermometer & Hygrometer

- Temperature measuring range - 0 - 60°C
- Humidity measuring range 20% - 95%
- Memory of minimum & maximum value for readings

Educating your customers and reducing complaints.

By identifying when the readings are too high or low your customer will be able to notify you before problems arise or get any worse.

Protimeter - Timbermaster Standard Kit
Includes

- Heavy duty probe
- Calibration check device
- Zip Pouch
- Calibration chart - 150 species
- 2 x AA batteries

Protimeter - MMS 2
Includes

- Quikstick Short
- Heavy duty moisture probe
- Calcheck device
- Operators Instructions
- 9v battery
- Pouch

For testing moisture in timber, concrete and atmospheric conditions.

Protimeter - Mini Moisture Meter
20 Coloured lights to indicate moisture level in timber.

Includes

- Extension pin probe
- Calcheck device
- Pouch with belt loop
- 2 AA batteries

Protimeter - Surveymaster
Includes

- Protimeter Surveymaster
- Protective Pouch
- 2 x AA Batteries
- Heavy Duty Extension lead
- 120mm Deep Wall Probes
- Self Calibration Check
- Wood Species Chart

Scan search for moisture in walls/floors to a depth of approx 19mm.

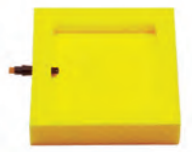

Protimeter - Humidity Sleeve
16 x 43mm humidity sleeves for Protimeter MMS 2 or Hygromaster. Use to measure equilibrium RH value of walls and floors by inserting into predrilled holes.

Protimeter - Aquant
Includes

- Protimeter Aquant
- Protective Pouch
- 2 x AA Batteries

Scan search for moisture in walls/floors to a depth of approx 19mm.

Protimeter - Humidity Box
Allows surface RH tests on concrete subfloors.

Tramex PTM 2.0 & HH14TP30 Wood Inspection Kit
Pin type moisture meter for wood, 6 - 46% digital readout to 0.1% accuracy. Calibration for 500+ wood species.

Built-in calibration for 500+ wood species and international standard calibrations.

Tramex Flooring EZ Kit CME II
Digital version of the Tramex CME 4, for fast, non-invasive and accurate moisture content measurements in solid floors and screeds including concrete.

- Fastest, most reliable, Hygro-i @ RH probe for testing to BS 8201 & ASTM F2170.
- Instant concrete moisture content test from 0 - 6.9% with CME II to ASTM F2659

Tramex Infrared Surface Thermometer
Features a laser target pointer to gain instant readings on almost any surface from a distance.

Tramex Pin Type Wood Probe HH14TP30
Wood probe with cable & pins for use with CME II, MRH3 & PTM.

Tramex CME 4 Concrete Encounter
Instant test for concrete with precise readings to a depth of approx. 20 mm (¾") into the slab.

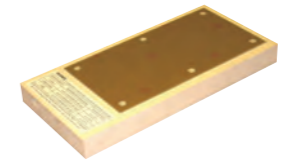

Tramex Hygrohood Tape
15m Roll

Tramex Hygrohood with Tape
Non-destructive relative humidity testing of concrete flooring slabs and screeds. Ideal for use with the Tramex CME 4.

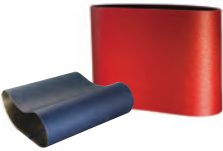

Tramex Humidity Box
For testing RH in concrete. Use in conjunction with CMEXpert kit.

Tramex Calibration Check Plate
Ideal for use with the Tramex CME 4.

For next day delivery of Bona adhesives call and **order before 10am****Bona**[®]
Passion for wood floors**Bona R850 Adhesive 15kg**

A hard-elastic 1 component silane adhesive. Suitable for all types of wood flooring. Its hard-elastic properties make it strong and resistant against movement of wood while relieving tension on the sub floor. Compatible with underfloor heating.
Coverage 850-1500g/m²

**Bona R848 Adhesive 15kg**

An elastic 1 component silane wood floor adhesive. A high performance formulation that is ideal for the installation of engineered wood flooring. Can also be used for solid boards up to 190mm wide. Compatible with underfloor heating.
Coverage 850-1250g/m²

**Bona R590 Silane Based Moisture Barrier 8kg**

A water and solvent free silane-based compound for priming and/or sealing residual moisture in the substrate. For reinforcing weak subfloor surfaces up to a certain level. Flooring can be installed as soon as 4-6 hours after application. Compatible with underfloor heating.
Coverage 500-1000g/m²

The most effective wood floor adhesives give you the right combination of strength and elasticity. Choose an adhesive from the Bona system that's just right for your installation.
For **Bona** products order before 10am for NEXT DAY DELIVERY.

**Bona R410 Primer/Moisture Barrier 5kg**

A solvent and water-free, 2 component epoxy resin, suitable for damp proofing concrete or cement subfloors – or for use as a primer prior to the application of a suitable adhesive or levelling compound. Two coats are required when used as a damp proofer – allow 3 hours between coats. Drying time: 24 hours.

**Bona Titan 15kg**

A silane based adhesive, it has a 'quadruple crosslinking' formulation that delivers ultimate durability and the fast possible bonding. Keeps even the largest solid boards in place. No discolouration or hollow spots. No primer required.
Coverage 850-1500g/m² depending upon type of flooring being installed.

WAKOL[®]**Wakol MS260 Plus Adhesive 18kg**

Firm-flexible, premium 1 component MS Polymer adhesive for gluing T&G flooring to concrete/timber. Can be used with underfloor heating.
Coverage Approx 12-14m²/unit

**Wakol MS228 Ready-To-Lay Parquet Adhesive 18kg**

Elastic, 1 component parquet adhesive for engineered floors only, for laying on absorbent and non-absorbent subfloors. Can be used with underfloor heating.
Compatible with MS330 only.
Coverage Approx 12-14m²/unit

**Wakol MS230 Adhesive 18kg**

Flexible, premium 1 component MS Polymer adhesive for gluing engineered flooring to concrete /timber. Can be used with underfloor heating.
Coverage Approx 12-14m²/unit

**Wakol 4535 Additive 0.15kg (Brown)**

Brown colour paste to stain PU225 Adhesive below.

**Lecol 5500 Adhesive Spirit Based 16kg/25kg**

Water free, spirit based rigid set adhesive for wood blocks, plywood, mosaic panels and parquet up to 90mm wide.
Coverage Approx 12m²/16kg
Coverage Approx 19m²/25kg

**Wakol PU225 Adhesive 6.75kg (Beige)**

2 component PU For gluing 10mm parquet flooring and mosaics. Can be used with underfloor heating.
Coverage Approx 6m²/unit

Wakol MS262 Adhesive Sausage 600ml
Solvent free modified saline adhesive for engineered & solid wood flooring up to 180mm. Suitable for underfloor heating. Coverage Approx 1m²/sausage

Bona R880 Silane Based Adhesive 310ml
Ready to use, fast drying, silane based adhesive suitable for the installation of stair nosings, skirting boards, door thresholds etc. Solvent free. Coverage Approx 9 lin m/tube

Adhesive Syringe Assembly (Luer Lock)
20ml Graduated

Adhesive Syringe Tip (Luer Lock)
14G 25mm SE Tip

Lecol TS160 Slotted Acoustic Underlay 3mm
15m² roll, for use with the above MS262 adhesive. See page 140 for full details.

Strong Grip Fast Action Panel Adhesive 350ml
Enhanced slump resistance for quick and simple direct bonding to most substrates without the use of temporary supports in most applications. Coverage Approx 10 lin m/tube

Adhesive Syringe Cap Seal
Black

General Paddle Whisk/Mixer
80 x 400mm

See pages 140 and 141 for our full range of underlays.

Lumberjack 5 Minute PU Adhesive Gel 310ml
Waterproof, thixotropic, transparent, gap filling gel, sets hard in just 5 minutes. Particularly suitable where rapid bonding is required. Coverage Approx 10 lin m/tube

Manual Adhesive Bulk Gun Applicator

Adesiv P6 Trowel
P6 (for T&G Blocks/Strip)

Lecol PVAC 0.75kg
PVA joint adhesive for floating floors. Great general purpose wood adhesive. Coverage Approx 25 lin m/ bottle when joint gluing

Mitre Fast Adhesive Kit
A two part instant adhesive system. Bonds most surfaces within 10 seconds.

Power Pro Gun
310/400ml

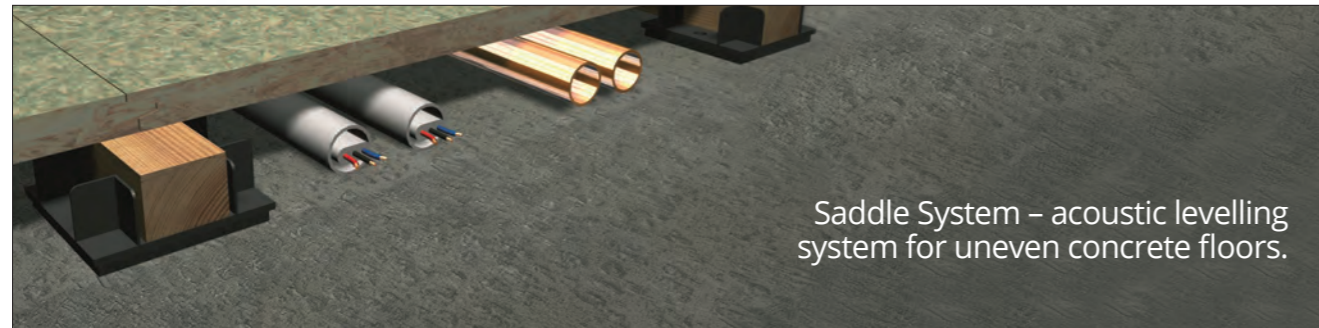

Lecol Wide Notched Trowel
P69 (for Parquet)

EXPERTS IN ACOUSTIC INSULATION, SOUND ABSORPTION AND REVERBERATION

CMSDanskin Acoustics soundproofing solutions have dramatically reduced airborne and impact noise in schools, theatres, churches, libraries, a host of residential projects and MORE!

Saddle System – acoustic levelling system for uneven concrete floors.

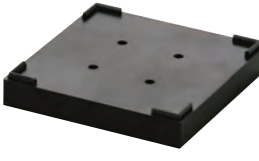

Acoustic Saddles
97mm x 97mm
The saddles are available in three head cap heights S, M, L. The small saddle permits 14mm of packing, the medium - 29mm and the large - 40mm.

11mm

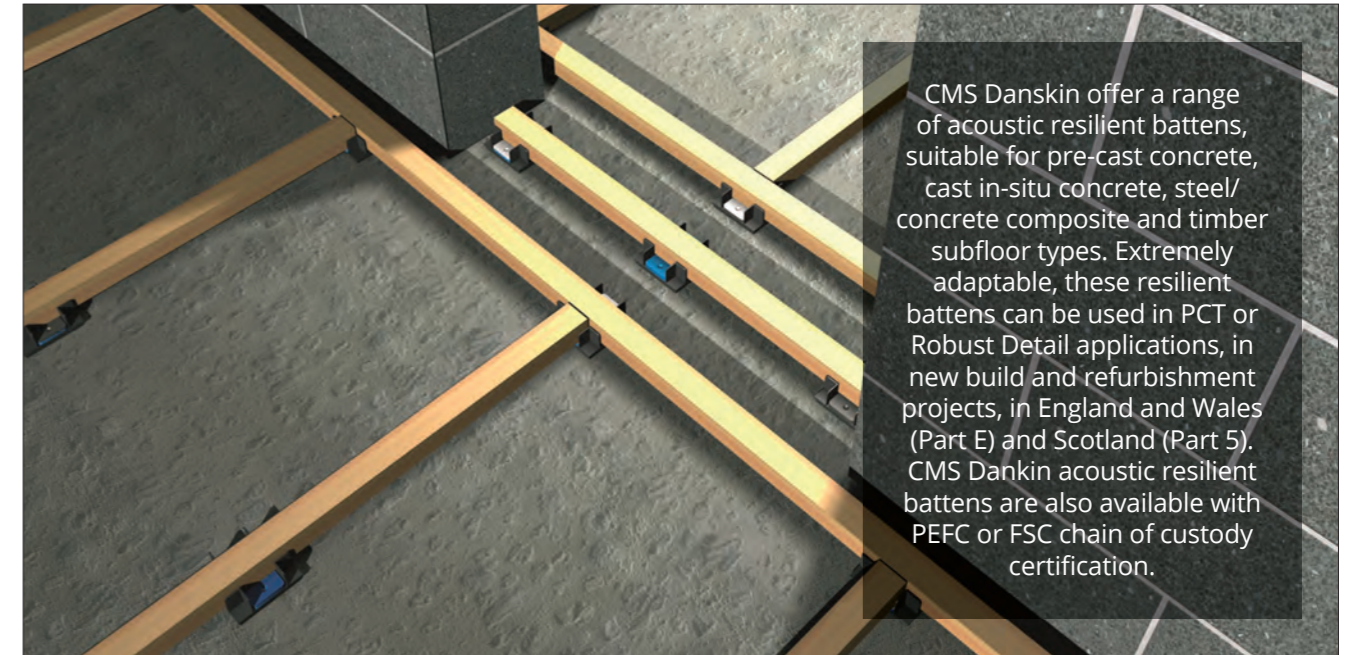

Regupol 4515 Eco Underlay
For concrete floors, material construction rubber/cork and suitable for underfloor heating.
3mm - 17dB
4.5mm - 18dB
Roll width 1.1m

Elevating Blocks
15mm Box of 432
30mm Box of 216
Can be placed in combination below saddles where floor variations are extreme up to a maximum height of 150mm.

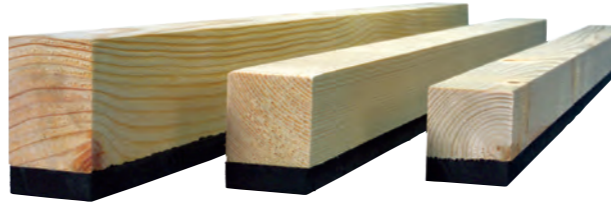

Packers
Boxes of 500 per size
Self locating plastic packers in 2, 3, and 5mm thicknesses. They interlock with each other and with the Saddle to achieve the levelling of uneven subfloors.

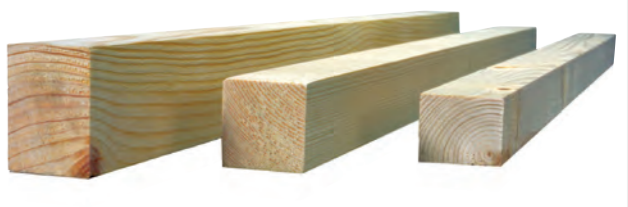

CMS Danskin offer a range of acoustic resilient battens, suitable for pre-cast concrete, cast in-situ concrete, steel/concrete composite and timber subfloor types. Extremely adaptable, these resilient battens can be used in PCT or Robust Detail applications, in new build and refurbishment projects, in England and Wales (Part E) and Scotland (Part 5). CMS Danskin acoustic resilient battens are also available with PEFC or FSC chain of custody certification.

See pages 24 - 45 for Truly Bespoke Flooring and pg 132 for 18mm Chipboard

CMS Danskin Softwood Batten Foam Backed

CMS Danskin Softwood Battens

EXCLUSIVE UK DISTRIBUTOR

Adesiv Legastucco L100 Resin Filler 10kg
Quick-drying solvent-based binding resin for mixing with wood powder to grout and smooth parquet floors. Can be painted over.
Coverage 2-4m²/1kg

lecol - 7500 Filler
To be mixed with fine abrasion dust from the wood in order to obtain a paste that can be used to fill small voids in parquet or other wooden floors.
Coverage 2-4m²/1kg

Stopgap Clear Roll - Clear or Brown 40m
Solution for draughty floorboards, reduces draughts and provides a base for filler, fast and easy to fit. V-shape in design, this is the clever bit, as the v-shape means the strip is now springy. It will grip the sides of the gap it is pushed into, holding it in securely.

These colours are available to order

Bona Mix&Fill
Water based filler for mixing with fine sawdust. Ideal for filling joints, gaps and minor defects up to 2mm in width. Offers a good colour match with the surrounding wood. Quick drying and easy to sand.
Coverage 5-10m²/1ltr

Rapier StarTurn

- No Pre-drilling
- Superior Holding Power
- 50% Quicker Screw Penetration
- 50% Less Drive-in Torque Required

The award winning Rapierstar StarTurn™ screw is probably the most efficient universal wood screw available. The patented StarForm™ cutting thread provides lower drive-in torque, quicker assembly times and exceptional holding power.

With a choice of Pozi or StarDrive™ recess, Full or Partial thread, Zinc or Yellow finish and sizes from 12mm to 300mm long, Rapier StarTurn™ screws provide a comprehensive and cost effective fastener for every application.

Rapierstar StarTurn™ screws offer up to 50% quicker drive-in time, with up to 50% lower torque - without pre-drilling.

What nails do I need?

How many nails do I need?

NOTE You can only nail your floor if you are installing over a wooden subfloor (not chipboard or concrete), as the nails need something to grip into. The nails will go into the tongued edge of the flooring plank at a 45 degree angle, so will be hidden from sight. This is why it is sometimes called 'secret nailing'.

$$\text{total m}^2 \div \text{face width of flooring} \div \text{joist centres} = \text{NAILS NEEDED}$$

EXAMPLE

$$20\text{m}^2 \div 0.083 \text{ (83mm width)} \div 0.30 \text{ (300mm centres)} = 804 \text{ NAILS}$$

Bona[®]
Passion for wood floors

Bona White Primer 5ltr

Waterborne 1 component tinted primer used to create a 'white washed' look to a wood floor - ideal when creating a Scandinavian style interior! Combine with a Natural, Extra Matt or Matt Bona lacquer.

Bona Natural Primer 5ltr

Waterborne 1 component tinted primer. Overcoat with Mega Natural or Traffic Natural for the most natural, 'unfinished' look and a highly durable surface.

Bona Classic Primer 1ltr

Waterborne 1 component primer, for a classic, light wood look. Produces a well-bodied surface thanks to its high solids content. Non-yellowing.

Bona Classic Primer 5ltr

Waterborne 1 component primer, for a classic, light wood look. Produces a well-bodied surface thanks to its high solids content. Non-yellowing.

Bona Intense Primer 5ltr

Waterborne 1 component primer with a medium rich wood colouration. Suitable on practically all types of wood, especially on medium to dark species. Highly suitable for floors with underfloor heating.

Bona Amber Primer 5ltr

Waterborne 1 component rich, amber wood tinted primer. Highly suitable for floors with underfloor heating and/or moving floors such as end grain or plank floors.

Bona Nordic Tone 5ltr

Pre-treatment to using Bona Craft Oil (see page 127) for an intensively white floor. It inhibits wood yellowing and can be used on both softwood and hardwood.

Bona Rich Tone 5ltr

Pre-treatment to oak floors for creating a rich dark brown giving the impression of smoked oak.

Use with Bona Craft Oil see page 127.

Bona[®]
Passion for wood floors

Bona Mega

Gloss/Silk Matt/Matt/Extra Matt
1ltr is in stock in Silk matt only
Waterborne 1-component oil-modified topcoat, no mixing. Produces a subtle rich tone more noticeable on light wood.

Bona Mega ONE 5ltr

Silk Matt/Matt/Extra Matt
Waterborne 1 component polyurethane topcoat. Can be used with or without primer. Clear, non-yellowing formula. Brings out a nice, warm wood colouration.

Bona Mega Natural 5ltr

Waterborne 1 component polyurethane lacquer. Seals and protects recreating the look and feel of untreated wood. Produces a subtle rich tone more noticeable on light species or floors treated with light stains.

Bona Traffic HD & Hardener 4.95ltr

Silk Matt/Matt/Extra Matt
2 component, tough, fast drying, clear, non-yellowing lacquer for wooden floors exposed to extreme wear, allows full traffic after 12 hrs.

Bona Traffic Natural 4.95ltr

Unlike conventional lacquers the surface, to the touch, feels more like raw finely sanded wood, use to achieve the most natural looking surface. For best results combine with Bona Natural primer.

Bona Traffic HD Anti Slip & Hardener 4.95ltr

Matt
All the features of Bona Traffic HD but formulated for slip resistance in workplaces or kitchens where there is an increased risk of spills.

Bona Retarder 200ml

Designed to be used when the indoor humidity is low and/or the temperature of the room is higher than normal. This will reduce the risk of the lacquer drying too quickly and leaving roller marks in the dried coat.

Bona Traffic Replacement Hardener 400ml

Replacement hardener is the second component must be used in conjunction with Bona Traffic HD.

Approx Coverage 10-12m²/ltr unless specified

DG

Junkers BasePrime 5ltr

BasePrime is a quick-drying oil based primer. Excellent for wooden floors where water-based primers cannot be used due to poor adhesion, for example exotic and oily timbers. Gives the floor more depth of colour and should only be used directly on to bare wood.

Junkers High Performance Sport Lacquer 4.95ltr
Silk Matt

2 component waterbased 100% polyurethane lacquer for very high traffic sports floors. Suitable for previously sealed as well as on new or fully sanded floors. Non-yellowing, extremely durable, scuff resistant, and very fast curing.

Junkers PreLak Primer 5ltr

Fast drying, water-based primer for use on untreated or machine sanded wooden floors and to be used with other water-based floor finishes on internal timber floors. Can be used with Strong and HP Commercial.

Junkers High Performance Commercial Lacquer 4.95ltr
Ultra Matt/Matt/Silk Matt/Gloss

2 component, water-based polyurethane lacquer. For pre-finished or untreated, newly installed or machine sanded wooden floors in domestic and commercial areas with high levels of traffic and extreme wear.

Junkers PreLak 5ltr
White/Grey/Nordic

Fast drying waterborne primer for use with other water-based floor finishes on internal timber floors. Can be over-coated with any of the Junkers waterbased floor lacquers.

Junkers High Performance Friction+ 4.95ltr
Ultra Matt

Low-odour, hard-wearing water-based lacquer for wooden floor areas where a high level of slip resistance is required. Use as the final coat on floors treated with Junkers HP Commercial floor lacquer.

Junkers floor treatment programmes supply a broad range of lacquers, oils and cleaners, see page 144, ensuring the best treatment for your floor.

Junkers Strong Premium 5ltr
Matt/Silk Matt/Ultra Matt

1 component water-based, low odour lacquer for wooden floors in high traffic areas. Suitable for previously sealed as well as on new or fully sanded floors.

Junkers ProFinish 5ltr
Ultra Matt/Silk Matt

1 component water-based acrylic/polyurethane lacquer. For use on internal pre-sealed, new, or sanded old wooden floors. A quick drying and curing lacquer, suitable for light residential/ domestic levels of traffic.

DG

Junkers Professional 625 Lacquer 5ltr
Matt/Silk Matt/Gloss

2-component, quick-drying, acid curing lacquer for use on wooden floors in high traffic areas. Used on both previously sealed as well as on untreated or sanded floors.

Junkers Professional 625 Replacement Hardener 200ml

Call for discounts for volume orders over 12 bottles

Approx Coverage 8-10m²/ltr unless specified

Lobadur® WS Life 5ltr
Semi-Gloss
Waterborne 1 component finish for wooden floors. Elastic, stable properties for normal traffic, use after primer.

Lobadur® WS Viva 5ltr
Matt-Satin/Semi-Gloss
Waterborne 1 component finish. For normal to heavy traffic residential areas and light commercial use. Excellent for renovation, use after primer.

Lobadur® PrimaSealPlus 5ltr
Alcohol-based primer for wooden floors for all wood species. Intensifies the colour of the wood.

Lobadur® WS 2K Fusion 5ltr
Matt-Satin/Semi-Gloss
Waterborne 2 component polyurethane finish for wooden floors with extremely good final hardness. **PLEASE NOTE FOR THE UK:** Matt-Satin = Matt Semi-Gloss = Silk Matt

Lobadur® WS EasyPrime 5ltr
Polyurethane-acrylate waterborne primer for roller and trowel application, offers rapid drying. Suitable for virtually all types of European and exotic timber, sports and multipurpose halls.

Lobadur® WS 2K Fusion 5ltr Anti-Slip R9
Waterborne 2 component polyurethane finish for floors. Elastic, excellent chemical and abrasion resistance for heavy traffic, use after primer.

NEW
product call for details

Lobadur® Whitener 80ml
An additive that is added to water-based Lobadur® primers and finishes for a smooth brightening of wood floors. Suitable for all light wood species, preferably recommended for matt finishes.

250mm Microfibre Roller Sleeve 13mm Pile
Use with 2K Invisible Protect AT. See page 146 for CareCleaner.

Lobadur® 2K Invisible Protect AT 4.55kg
Waterborne surface protection for heavy traffic. Retains the natural appearance and feel of untreated wood. Use with 12mm Pile Roller (120g/m²). Coverage 8m²/ltr

Loba Measuring Jug
For mixing 2 part lacquer.
Loba Lacquer Bucket
Bucket with lid and measuring scale.

Sadolin PV67
Satin/Gloss
2 Part spirit based wooden bar top lacquer. Other areas of use include dance floors, restaurants, community halls, sports hall floors, shops and office flooring. Coverage 10-12m²/ltr

Shellac Base Polish 5ltr
Transparent spirit based sealer, use for a darker finish with most lacquers and waxes. Coverage 10-12m²/ltr

Shellac Base Polish White 5ltr
White spirit based sealer, virtually colourless once applied, use for a lighter finish with most lacquers and waxes. Coverage 10-12m²/ltr

Rollers and Handles
see page 137

Adesiv K32S Primer 10kg
Water-dispersion adhesion promoter. Suitable for absorbent surfaces or for non absorbent floors, to be applied before cement-based Adesiv Adecem Fiber.
Coverage approx 60-70m²

NEW product call for further details

Adesiv Adecem Fiber 25kg
Self-leveling fiber-reinforced cement-based powder for smoothing uneven substrates of thicknesses from 3 to 50mm. Suitable for underfloor heating. Coverage depends on the flatness of the surface.

ADESIV
since 1971 glues and varnish for parquet and more...

Adesiv WB PU 10kg
Single component PU DPM. 1 coat primer or 2 coats as DPM. Drying time 60 minutes. Apply kiln dried sand to final coat.
Coverage 2.5-5m²/kg

Ardex A 45 Repair Mortar Mix 11kg
Rapid drying and hardening, slump free mortar, hard enough to walk on and receive floors after 90 mins regardless of thickness.
Coverage approx 7m² at 1mm

Kiln Dried Sand 20kg
This sand is dried in a kiln which removes all the moisture, perfect to be used in conjunction with PU DPM's.

Screeding Trowel Soft Grip Handle
14in x 4in

Large Flexi Tub 42ltr
Extremely versatile and virtually indestructible. It can be used for mixing plaster or cement, moving rubble and various other jobs.

NEW product call for further details

Wakol MS330 Silane Primer and 10" Application Roller
Ready-to-use 1-component MS primer for priming absorbent and non-absorbent subfloors, and solidifying abraded or sanded screed edges.
Application and consumption*; Approx. 80 - 120g/m² - To harden surfaces when used as a primer use WAKOL Primer roller, short haired velour roller or rubber lip.
Approx. 250 g/m² - When used as a moisture barrier use WAKOL MS Special Roller - shown left and on page 135 - or trowel notch size according to TKB A2.
Primed surfaces can be walked on after approx. 60 minutes.
*Consumption is dependent on surface structure and absorbability of subfloor.

Wakol Z715 Levelling Compound 25kg
Level uneven sub floor with layer thickness of 1-10 mm unextended. Extended from 5-25 mm under parquet as of 2 mm layer thickness.
Coverage Approx 6m² at 3mm

Wakol AR114 Reinforcement Fibre 250g
Alkali-resistant glass fibres for reinforcing WAKOL Z715. Reduce cracking on unstable old subfloors, wood planks, wooden material tiles and prefab screeds.

Wakol PU280 Primer/DPM
Single component PU Resin Primer or a DPM when applied crosswise in two layers. Drying time 45 minutes.
Coverage 6-10m²/kg

Wakol D3055 Primer 10kg
Ready-to-use dispersion-based primer for all types of sub floors under all Wakol adhesives.
Coverage 8m²/kg

Wakol D3045 Primer 12kg
Ready-to-use single component 'aggregated' primer. Adhesion promoter for Z715 on PU280.
Coverage 8m²/kg

Wakol D3035 Primer 10kg
Ready-to-use primer for use on absorbent surfaces under the levelling compound.
Coverage 6m²/kg

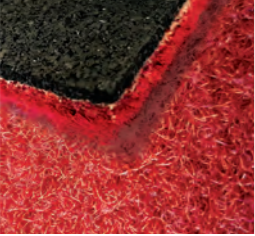

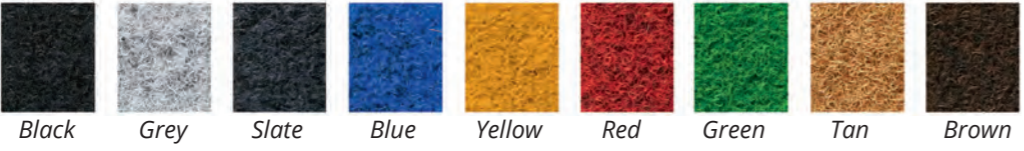

Other types of matting available including logo matting **please call**

Approximately 80% of dirt in a building is introduced by footwear transported from outdoors. To help both protect and keep clean the solution is to lay protective matting.

Craft Oil 2K and Craft Oil available to order in sample pots please call.

- Great stain, water & wear resistance
- Spot repairable
- Intermixable colours
- Fast curing, floors ready for light use in 8 hours
- Compatible with tropical wood species
- Very low VOC content
- Compatible with other oils and colours from the Bona Oil System
- Application by squeegee, roller, trowel or buffing machine
- Overcoatable with Bona Traffic HD, Bona Traffic HD Anti-Slip and Bona Traffic Natural

Bona Craft Oil 2K 1.25ltr

Bona Craft Oil 2K's unique formula, made from modified plant based oil, delivers an accelerated drying time and great wear resistance. It's the perfect treatment for a wide variety of wood species including tricky ones such as cherry and walnut. Bona Craft Oil 2K produces a beautiful, strong water and stain-resistant surface that is ready for light use in just 8 hours. For enhanced durability, the oiled floor can be overcoated with any version of Bona Traffic lacquer if required, [see page 119](#), after just 12 hours. 12 colours are available as standard and each are intermixable.

POA

Osmo Wood Wax Finish
Combining all the advantages of oils and waxes in one unique product. It is possible to create an almost infinite variation of naturally occurring colour shades to enhance the grain showing a gorgeous, natural colour tone or if you prefer a choice of intensive, bright or vivid colours. *Wood grain remains visible with transparent tones and can be hidden with intensive tones.* Very durable and hardwearing. Water and dirt resistant. No sanding necessary for spot repairs or future applications. Microporous, breathable finish which does not crack, peel or flake. For high tread surfaces when using the intensive colours only one coat is recommended, followed by a clear coat of Polyx®-Oil - **NOTE** characteristics become hidden as shown below if applying a second coat of Wood Wax Finish.

	R11 3089 Satin

available to order in sample pots

Osmo Polyx High Solid Hardwax Oil Effect Raw 2.5ltr
Raw/Silver/Gold
Coverage 30m²/ltr/coat

	3044 Raw
	3091 Silver
	3092 Gold

Osmo Oil Stain & Hardener
Colour and protect wooden floors without visible transitions, applying a single coat of the Oil Stain will create a transparent look showing the wood's natural grain, whilst an optional second coat can give a more intensive colour tone. A clear final coat of an Osmo Polyx®-Oil product is a must to protect pigmented finishes from wearing of colour.
Coverage 24-48m²/ltr/coat

Oil Stain Hardener 6631 is an optional second component, this can be used to harden the finish which reduces the drying and curing time from 12 to just 4 hours! *To Order.*

	3501 White		3519 Natural
	3512 Silver Grey		3541 Havanna
	3514 Graphite		3543 Cognac
	3516 Jotaba		3564 Tabac
	3518 Light Grey		3590 Black

Osmo Wood Wax Finish Clear Extra Thin
Natural oil and wax combined interior finish designed for hard, ingredient-rich, oily and dark wood species - such as Teak, Cedar, Iroko, Walnut etc.
 1101 Satin |

Osmo Polyx Oil Express & Hardener
Very fast drying, clear finish with special surface hardness and optional hardener 6632 for accelerated drying.

	3332 Satin
	3362 Matt

UV-Protection-Oil
Prolongs the renovation intervals significantly.

	410 Clear Satin without film protection
	420 Clear Satin with film protection
	425 Oak Tint

Osmo Polyx Oil 2K Pure 1ltr
Solvent and water-free 2-component oil developed for mechanical applications.
Coverage 40-50m²/ltr/coat
 6125 Clear Satin |

ACCESSORIES

Loba® HS 2K ImpactOil Color

2 component coloured HighSolid oil based on natural ingredients for staining of parquet and hardwood floors. Suitable for initial impregnating treatment of hardwood floors. Also suitable for rooms that are exposed to increased levels of moisture,

such as bathrooms, spa areas, etc. Anti-slip as per BGR 181 and DIN 51130 evaluation group R9. Due to its good penetration properties the wood will be preserved, but remains porous and breathable. Compared to regular 1C oils the 2C technology achieves a quicker curing, a lower susceptibility to dirt and a better water and chemical resistance.

Coverage 400 - 500 ft² per 2.5 kg unit for transparent oil where 1 coat is required. 150 - 250 ft² per per 0.75 kg unit for coloured oil with 2 coats, amounts depend on the absorbing properties of the wood.

	Black		Silver
	Chalk		Antique Oak
	Clay		Smoked Oak
	Iron		Sucupira
	Papyrus		Transparent
	Sand		Wenge

Loba® Markant Color or Transparent

Natural hardwaxoil for staining of parquet and hardwood floors. High-quality, layer-building oils accentuate the natural look of the wood and at the same time achieve excellent resistance to dirt and water. Suitable for virtually all types of European and exotic timber.

- Water and dirt resistant
- Film-forming, wear-resistant
- Accentuates the natural beauty of the wood
- Earliest possible overcoating after 12 hours
- Usable after 24 hours
- All variants can be mixed with each other
- Colours available in 0.75ltr only
- Transparent available in 0.75ltr and 2.5ltr - Satin or Matt

Coverage 20-100ml/m² depending on tool used

	Bilinga		Antique Oak
	Black		Smoked Oak
	Chalk		Sucupira
	Jatoba		Transparent
	Kambala/Iroko		Satin/Matt
	Mahogany		Wenge
	Papyrus		White

Junkers Rustic Oil Colour

Indoor priming and finishing oil product for untreated wooden floors. For areas with high levels of traffic and extreme wear then this can also be overcoated with HP Commercial, [see page 120](#). These oils emphasize the natural grain structure of the wood.

	Nut
	Walnut
	White

Coverage** 5-50 m²

Junkers Rustic Oil Clear

Satin finish, priming and finishing oil for wooden floors that can be used in combination with Rustic Oil Colour. Or, if you like the appearance of oil, but want the advantages of a lacquered surface, then you can combine Junkers Rustic Oils with Junkers HP Commercial lacquer.

**High and low traffic areas; 1 impregnating coat of Rustic Oil (5m² per litre), 2 thin coats of Rustic Oil (50m² per litre).

Coverage** 5-50 m²

Loba® ProColor Stain

For staining of parquet and hardwood floors. Dries reliably and lap-free, easily varnished over with LOBA® waterborne finishes. To lighten the shade or to reduce the coverage, mix with the transparent variant. Max. 3 parts transparent to one part colour. **NOTE** - All variants can be mixed with each other.

The below samples have been finished with 2 coats of Viva Silk. Coverage 20-33/m² depending on tool used

	Bilinga		Smoked Oak
	Black		Sucupira
	Jatoba		Transparent
	Kambala		Wenge
	Mahogany		White
	Papyrus		

Rustins Wood Dye Stain

This solvent based, fast drying stain for new bare/stripped wood does not raise the grain & must be over coated/sealed. All shades can be intermixed.

The below samples have been finished with a Satin Lacquer.

Coverage 24m²/ltr/coat depending on wood absorbency

	Antique Pine		Medium Oak
	Ebony		Dark Oak
	Grey		Light Teak
	Brown Mahogany		Dark Teak
	Red Mahogany		Walnut
	Light Oak		White*

* Water-based

Loba® PreTone Stain

Waterborne pigment stain for wooden floors. Colour intensification under colour oils. By accentuating the wood structure and grain, vibrant colour effects can be achieved.

Use on raw, carefully sanded wood. More intensive colour effects are achieved through the combination of water

and pigment, especially with light colour effects. When in combination with HS 2K ImpactOil Color the individual colour designs you are able to create becomes almost unlimited.

Coverage depends on application method

	Black		Steel
	Brown		White
	Mocha		

Mylands Non Fade Ground Stain

Solvent based stain available in a comprehensive selection of wood shades for professional use only.

The below samples have been finished with a Satin Lacquer.

Coverage Approx 20m²/ltr/coat

	Antique Pine		Medium Oak
	Bilinga		Warm Medium Oak
	Black		Dark Oak
	Kambala		Rosewood
	Brown Mahogany		Sapele
	Dark Mahogany		Teak
	Red Mahogany		Walnut
	Repro Mahogany		Dark Walnut

Sheet cutting charge 4 - 9mm £1.00 & 12 - 18mm £1.50 per cut

Plywood/Hardboard/Chipboard	Unit	Price
 <p>Hardboard 3mm 2.4m x 1.2m (8' x 4') Sheet</p>	Sheet	
 <p>WBP Plywood (only use with timber flooring) 3.6mm 2.4m x 1.2m (8' x 4') Sheet 5.5mm " " 9mm " " 12mm " " 15mm " " 18mm " " 25mm " "</p> <p>WBP Spruce Plywood (T&G) 18mm 2.4m x 0.6m (8' x 2') Sheet</p>	Sheet	
 <p>MR Chipboard (T&G) 18mm 2.4m x 0.6m (8' x 2') Sheet</p>	Sheet	

Sheet Count CALCULATION

customer area ÷ product area = SHEETS NEEDED

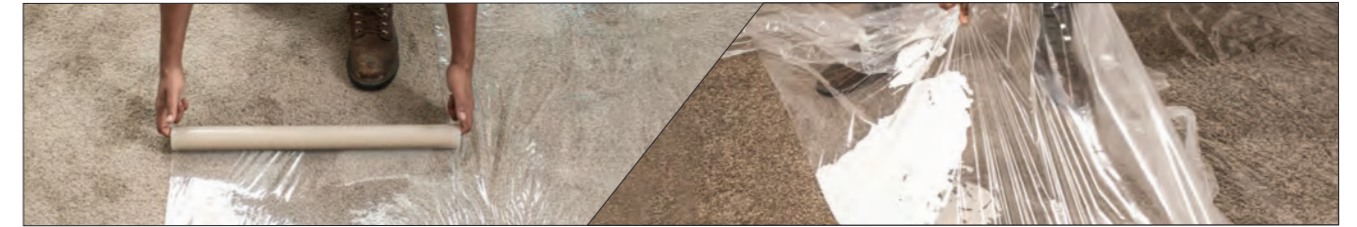

EXAMPLES

85m² ÷ 2.88 (Hardboard) = 30 SHEETS

165m² ÷ 1.44 (Chipboard) = 115 SHEETS

PRODUCT AREA CALCULATION = WIDTH x LENGTH

Always keep in mind do you need to order extra sheets?

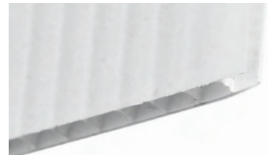

Pro Carpet
600mm x 100m.
Clear polyethene with low tack acrylic adhesive.

3mm Wakol TS103 Sound Reduction Underlay 35m Roll

Cork/polyurethane foam matting for improving footfall sound and heat insulation.

Suitable as a soundproofing plate underneath: strip parquet, multi-layer parquet, solid wood planks.

35m x 1m x 3mm

Oak wood type, maximum 16cm in width.

Recommended adhesive PU225 see page 105.

Lecol TS160 Slotted Acoustic Underlay 3mm 15m² Roll

Slatted Underlay which has been coated on one side with aluminium. This prevents moisture from the subfloor permeating the underlay and entering the underside of the wood. The slats ensure the correct application of the MS262 adhesive see page 106.

3mm Heatflow 15m² Roll

1.37m x 11m

Sound Reduction up to 21db, use when installing engineered wood and laminate flooring over underfloor heating. Material is sponge rubber, lay white side up.

See page 139 for underfloor heating.

Bitumen Flooring Paper 25m² Roll

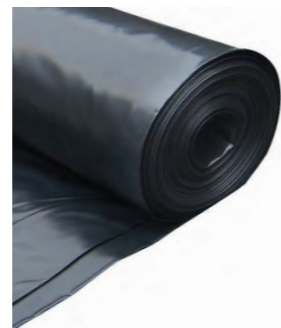

Use over joists with T&G Flooring BS1521. Breathable membrane, building paper each side of the bitumen. Use where the timber subfloor has a moisture content higher than the recommended 10-12% for installation e.g. if you are nailing over battens or timber joists.

Blu "All In One" Underlay 10m² Roll

Sound Reduction 20db - 3mm (10m²)

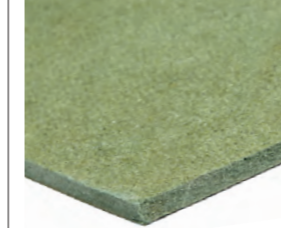

Integral damp proof membrane with joining tape. For wood, concrete and laminate floors. Excellent thermal and shock insulation qualities.

1000G DPM 100m² Roll

4m x 25m

Designed to be used in conjunction with a cushioning underlay, and to prevent moisture damaging the floor.

Fibre Boards 5.5mm 10.03m² Pack 7mm 9.6m² Pack

Fine Floor eliminates noise in rooms, limits heat loss through the floor and gives the impression of a "warm" floor. These natural wood fibre underlay insulating panels are used for laminate, engineered, and solid wood; domestic installations.

Regupol 4515 Eco Underlay 20m² Roll 3mm - 17dB 12m² Roll 4.5mm - 18dB

For concrete floors, material construction rubber/cork and can be bonded to all types of floors.

Suitable for underfloor heating.

Roll width 1.1m

See page 108 for acoustic solutions.

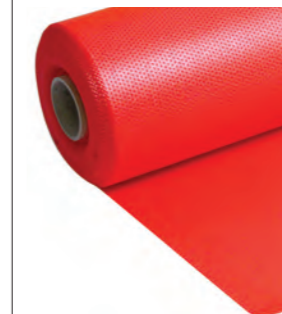

Technics Underlay 15m² Roll

Sound Reduction:-
5mm up to 28db
6mm up to 31db*

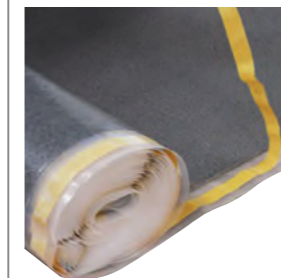

High quality reinforced crepe backing provides exceptional dimensional stability to the installation of wood floors.

*Available to order

2mm Quick Therm Underlay 10m² Roll

Ultra low 0.35 Tog, perforated, very dense, closed cell polyethylene foam underlay - specially designed to offer maximum heat transfer for use with underfloor heating systems; for engineered and solid wood.

3mm Pro-tech Foam 10m² Roll

Sound Reduction up to 22db, (Inc 1000G DPM) takes out unevenness in the sub floor surface, full 1000 gauge damp proof membrane to both sides with integral joining tape.

4mm Duralay Timbermate Excel DIY Underlay 10m² Roll

Sound reduction underlay 23dB. Suitable for underfloor heating.

Timbermate Vapour Tape

75mm x 25m

Self adhesive seaming tape that creates a moisture barrier with improved joint seal protection and also strengthens underlay joints.

100% Passion, 100% Bona. Bona offers all the products you will need to clean and maintain floors finished with lacquer or oil.

Bona Starter Kit

Contains wood floor mop, microfibre cleaning pad and wood floor cleaner spray 1ltr.
Coverage up to 50m²/ltr

Bona Cleaner 5ltr

An everyday concentrated floor cleaner for all types of interior wooden floors. Used for regular mopping or in a machine based cleaning programme.
Coverage up to 2000m²/ltr

Bona Care Oil

Designed for the maintenance of oiled floors. Extremely low VOC and odour. It delivers superior protection due to its excellent penetration and is very quick drying.

Telescopic Microfibre Cleaning Mop Set

Includes the handle, swivel head and cleaning pad.

Replacement Microfibre Pad

Bona Telescopic Mop

Includes microfibre pad, this easy to manoeuvre, swivel mophead with telescopic handle works with all Bona Pads.

Bona Freshen Up 5ltr

Ready-to-use, waterborne maintenance coating for most finished and pre-finished floors. Revives a scratched and dull surface giving a newly finished look.
Coverage up to 50m²/ltr

Bona Polish Remover 1ltr

Removes build up from polish & other maintenance products. Important! Do not allow into open gaps in the floor. May cause permanent stain.
Coverage up to 50m²/ltr

Bona Refresher 1ltr

Ready-to-use, waterborne maintenance coating for varnished floors. It revives scratched and dull surfaces Important! Do not use on waxed or oiled floors.
Coverage up to 50m²/ltr

Bona Spray Cleaner and Refill

Ready-to-use and specially developed for cleaning of varnished or hard-waxed wooden floors. Spray-on cleaner, pH neutral, leaves no dulling residue.
Coverage up to 50m²/ltr

Bona Polish Gloss

Ready-to-use, waterborne maintenance coating for varnished floors. Gives the surface new lustre and continued protection.
Coverage up to 50m²/ltr

Bona Polish Matt

Ready-to-use, waterborne maintenance coating for varnished floors. Protects matt floors without drastically increasing the gloss level.
Coverage up to 50m²/ltr

Bona Microfibre Pad Refresher

Designed for the application of Bona Wood Refresher and all Bona polishes on all surfaces. Washable and reusable and attaches to the Bona Mop with Velcro-like strips.

Bona Microfibre Pad Cleaner

For use with Cleaner, this pad is a washable microfibre pad which attaches with Velcro-like strips to all Bona Mops, including the Bona Spray Mop.

Clear Plastic 1ltr Bottle with Spray Trigger

Bona Dusting Pad

For use with the Bona Standard or Spray Mop for dry mopping. Machine washable.

Osmo Wash and Care
 Concentrate for the everyday cleaning and maintenance of oiled and waxed wooden flooring.
 1 cover cap per litre of water

Osmo Maintenance Kit
 Contains Osmo Wash and Care for regular cleaning, Liquid Wax Cleaner for occasional intensive cleaning and refreshing. Maintenance cloths and instructions are also included.

Osmo Intensive Cleaner
 The ideal alternative to sanding wood surfaces finished with oils and waxes, use for intensive cleaning and restoration.
 Coverage up to 30-100m²/ltr

Clear Plastic 1ltr Bottle with Spray Trigger

Junckers SylvaCleaner
 SylvaCleaner is a universal cleaning product for daily or periodic cleaning of lacquered and oiled wood floors. SylvaCleaner has been developed to dissolve surface dirt and to dry quickly. Use a scrubber-dryer machine or clean by hand.
 Dilute 50–200 ml per 10 litres of water

Junckers SylvaNeutralizer 1ltr
 Use to neutralize SylvaCleaner before re-lacquering or to maintain slip resistance.
 The product also removes grease from wooden sports floors. It is not necessary to clean the floor with water afterwards .
 Dilute 200ml to 10ltr of water

Wood needs care and protection.
 The best product for wood is a finish that is developed only for wood, so you can enjoy your wood for a long time. With just one tin of Osmo you can achieve near to double the square meter coverage of an ordinary finishing system, saving you time and money.
 The foundation of Osmo wood finishes has been based upon purified and refined natural resources which are carefully harvested natural oils and hard waxes.

Osmo Maintenance Oil 1ltr
 3079 Matt 3081 Satin
 3440 White Transparent
 Ideal for the maintenance of solid wood, plank, parquet and strip treated with Polyx®-Oil.
 Coverage up to 40-60m²/ltr

Osmo Maintenance Oil Anti Slip (R9) 1ltr
 3098 Semi-Matt
 Ideal for the maintenance of solid wood, plank, parquet and strip treated with Polyx®-Oil.
 Coverage up to 40-60m²/ltr

Osmo Liquid Wax Cleaner 0.4ltr
 Clear Spray
 Ideal for removing tough stains and best suited for refreshing all surfaces treated with Osmo Polyx®-Oil.
 Coverage up to 80-100m²/ltr

Osmo Brush Cleaner 1ltr
 Perfect for use on paint brushes after use with wood finishes to remove the finish from the bristles. Can also be used a thinning agent for solvent-based finishes, such as Osmo's range of wood oils.

Osmo Liquid Wax Cleaner 1ltr
 3087 White
 Same spec as Clear 3029 other than **ONLY** to be used on white coloured/treated surfaces.
 Coverage up to 80-100m²/ltr

Osmo Liquid Wax Cleaner 1ltr
 3029 Clear
 Ideal for removing tough stains and best suited for refreshing all surfaces treated with Osmo Polyx®-Oil.
 Coverage up to 80-100m²/ltr

NO bucket required
Fast and easy cleaning

Lobacare® Spray Mop, Pad and Cleaner
Integrated Spray System for the cleaning of parquet and hardwood floors.
- No Bucket Required

Lobacare® Cleaner 1ltr
Daily cleaning for lacquered and oiled floors.
Use on all parquet, cork and multi-layer parquet flooring. Highly concentrated and specially developed for the LOBACARE® line of maintenance products but compatible with all floor-care systems.

Lobacare® Spray Mop Microfibre Replacement Cover
Microfibre mop cover replacement for use with the Loba Spray Mop. Used for cleaning wood and cork floors.

Lobacare® V6 Finish 1ltr
Matt/Gloss
Permanent polyurethane floor care for lacquered floors.
Matt - Suitable care product for extra-matt and matt-finished hardwood floors, cork floor coverings and more.
Gloss - Suitable care product for semi-matt and glossy-finished parquet, hardwood floors, cork floor coverings and more.

Lobacare® ParkettCare 1ltr
Waterborne floor care maintenance product for lacquered floors.
Suitable care product for matt and extra-matt-finished parquet and hardwood floors. Also ideal for UV-finished surfaces.

Felt Gard Plus 8 pack
25mm Nail In Felt Pads
Once hammered into the base of the furniture the felt covered pad is fixed in place and will then protect the flooring.

Kingston Felt Strip 1 pack
90 x 164mm
Soft, self adhesive, non marking and easily cut to size required. Helps to protect floors from dents and scratches. Before installation prepare surface by cleaning and lightly sanding to ensure better adhesion of the pads.

Kingston Felt Pads Multipack
19mm/26mm/38mm
Kingston Felt Pads are self-adhesive and help to protect floors from dents and scratches. Before installation, prepare surface by cleaning and lightly sanding to ensure better adhesion of the pads.

Kingston Felt Pads 32 pack
19mm
Kingston Felt Pads are self-adhesive and help to protect floors from dents and scratches. Before installation, prepare surface by cleaning and lightly sanding to ensure better adhesion of the pads.

Kingston Felt Pads 16 pack
26mm
Kingston Felt Pads are self-adhesive and help to protect floors from dents and scratches. Before installation, prepare surface by cleaning and lightly sanding to ensure better adhesion of the pads.

Kingston Felt Pads 8 pack
38mm
Kingston Felt Pads are self-adhesive and help to protect floors from dents and scratches. Before installation, prepare surface by cleaning and lightly sanding to ensure better adhesion of the pads.

1 DEFINITIONS

The Company means Wood Floors & Accessories Limited.

The Customer means the Customer of the Company.

The contract means the sale of goods between the Company and the Customer.

The goods mean the parts and materials sold from the Company to the Customer.

2. PRICES

Printed prices are subject to VAT and correct at the time of release but are subject to change without prior or written notice.

3. QUOTATIONS

All quotations are valid for 14 days and are subject to current stock availability from our suppliers.

4. DELIVERY

Adequate labour must be provided by the Customer at time of unloading of goods and will only be delivered to ground floor entrances and not unloaded into the premises.

All delivery dates quoted are approximate and the Company may not be liable for any costs incurred due to late deliveries.

Risk of the goods is passed to the Customer once they have been delivered.

5. STORAGE

The Customer shall store the goods in accordance with the British Standard Institute recommendations, unless otherwise stated.

6. CLAIMS & NOTIFICATIONS

Any claims for non delivery must be notified in writing to the Company within 24 hours.

Any claim that the goods were delivered damaged must be noted on the delivery note and notified in writing to the Company within 24 hours of delivery.

Any claims for the incorrect quantity being delivered must be notified in writing to the Company within 24 hours.

The Company will only accept responsibility for the first 1m²/Pack/Sheet/ Unit of sale of any product rejected due to poor quality and not an entire quantity.

The Company must be given the opportunity to investigate via a third party consultant any complaint regarding defective goods. In the event of a valid complaint the Company must be given the opportunity to replace the goods with an alternative batch or product and will not be liable for any costs incurred unless prior approval of quotations have been given in writing by the Company.

The Company has no liability for any kind of defects resulting from wear and tear, accident or improper use of the products supplied.

7. RETURNS & CANCELLATIONS

Stock products returned in their original condition will be subject to a 10% re- stocking charge to cover internal costs.

Certain products must be returned within 7 days and have matching batch numbers to those taken.

Any non stock products may be returned, at management's discretion, and will be subject to the manufacturers re-stocking fee.

Any bespoke products ordered will be subject to a 50% non refundable deposit and 100% cancellation charge.

Any incurred carriage costs will be quoted and charged at cost prices.

8. MOISTURE CONTENT, PRODUCTION & GRADING

The moisture content of any wood supplied by the Company will be in accordance with the British Standard Institute recommendations unless otherwise stated.

Any complaints as to the moisture content must be made in writing to the Company within 24 hours of delivery.

Any goods delivered by the Company must be stored in dry conditions in accordance with the British Standard Institute recommendations unless otherwise stated.

Grading rules may vary from country to country and manufacturer to manufacturer. Please check at time of placing an order for a certain product/range.

Production tolerances may vary from country to country and manufacturer to manufacturer but will generally be + - 1mm on the widths and + - 0.50mm on the lengths.

9. SAMPLES

All samples given by the Company to the Customer should only be used as an indication of colour and not as a true representation of the size, colour and grade of the product.

10. BESPOKE FINISHING

Although every effort is taken to control our finishing processes samples should be used as a general guideline to the final colour and shades. As natural tannin levels may vary from tree to tree the colours achieved in our smoked finishes enhance the inherent variation that nature dictates.

Bespoke finished orders are subject to a 100% cancellation charge and non returnable. We recommend a minimum 10% is allowed for selection waste on site and more should you require more consistency of colour.

All prices are correct at the time of going to press and are subject to vat at the current rate.

Please note that colour representation is not entirely accurate and is for guide purposes only.

Products not included in the delivery pricing structure due to either their size, weight or flammability properties include reclaimed floorboards, softwood battens - *dependent on quantity*, some underlays, pro card, plywood and hardboard.  In line with Environmental Legislation ISO14001, delivery charges are now POA only on products over 5kg per unit which are classed as hazardous goods.
